Rogers, Arkansas

EDUCATION

University of Arkansas — **Fayetteville, Arkansas**
Bachelor of Science in Industrial Engineering and Operations Analytics — Expected: May 2029
Cumulative GPA: 3.75

Bentonville High School — **Bentonville, AR**
High School Diploma — May 2025
Cumulative GPA: 3.95

WORK EXPERIENCE

Engine Analytics — **February 2025 – May 2025**
Product Marketing and Positioning Intern — Rogers, AR

- Built a comprehensive inventory of core products with documented purpose, target users, value, etc.
- Mapped client personas (sales, IT, supply chain, category management, & marketing) and corresponded to each product's capabilities and needs.
- Conducted interviews with product owners and senior leaders to gather insights.

Rush Bowls Bentonville — **June 2023 – July 2025**
Team member — Bentonville, AR

- Prepared/served a variety of smoothies and smoothie bowls, ensuring high quality and customer satisfaction.
- Manage cash transactions, process payments, and ensure all money is accounted for at the end of shift.
- Guided and trained new employees on company procedures, job responsibilities, and performance expectations.
- Maintained a clean and organized work environment for health and safety standards.

ENGINEERING PROJECTS

Super Powered Project — **Spring 2026**

- Collaborate on a six-member team of first-year engineering students to design and develop a solution to an open-ended, real-world energy challenge. Modify and program a LEGO robotic system to compete in an energy-themed engineering competition.

Water Filter Project — **Fall 2025**

- As part of a three-member team alongside two fellow first-year engineering students, I helped design and test two prototype systems, resulting in a final solution that improved water quality by over 400%.

Balsa Wood Project — **Fall 2025**

- As part of a three-member team, I collaborated with two fellow first-year engineering students to design and construct a balsa wood tower weighing under 10 grams that successfully supported 42.5 pounds.

ORGANIZATIONS

University of Arkansas Society of Women Engineers — **Fall 2025 – Current**
Fayetteville, AR

- Active member empowering women to achieve their full potential as engineers and leaders, while promoting diversity, inclusion, and a positive image of the profession.

University of Arkansas Institute of Industrial and Systems Engineers — **Fall 2026 - Current**
Fayetteville, AR

- Participate in professional development, networking, and industry-focused events related to industrial and systems engineering.

Kappa Delta — **Fall 2026 - Current**
Fayetteville, AR

- Active member involved in campus engagement, philanthropy, community service, and personal and leadership development.

CERTIFICATION/HONORS

Certifications: Certiport Microsoft: Word, Powerpoint, & Excel, Certiport Entrepreneurship and Small Business
